Candle Light Vigil for The International Day of the Girl

on Friday, October 11, 2013 at 6PM at

Bear Creek Park 13750 – 88 Avenue, Surrey, BC V3W 2L1

The International Day of the Girl was formally declared as a day to promote female rights by the United Nations in 2011. The declaration of this day was a Canadian initiative and resolution. This candle light vigil will be held to honour those girls whose lives were lost due to injustices and gender inequality issues. Globally and locally, females have been made victims of honour killings, female feticide, societal discrimination, cultural attitudes, and familial issues. The deaths of these girls and women have simply occurred due to the fact that they were born as females in male-dominated societies. Let us come together to honour those lives that have been lost and to advocate human equality.
